EDUCATION

M.Sc. Data Science

Bishop Heber College, Bharathidasan University, Trichy

B.Sc. Statistics

National College (Autonomous), Bharathidasan University, Trichy

2024 – 2026

CGPA: 8.7/10

2021 – 2024

CGPA: 8.4/10

SKILLS

- **Programming Languages:** Python, SQL, R
- **Machine Learning & AI:** Regression, Classification, Clustering, CNN, Feature Engineering, Model Evaluation, EDA
- **Frameworks & Libraries:** Scikit-learn, TensorFlow, Keras, Pandas, NumPy, Matplotlib, Seaborn
- **BI & Visualisation:** Power BI (DAX, KPI Dashboards), Excel (VLOOKUP, Pivot Tables), Streamlit
- **Databases:** MySQL, MongoDB
- **APIs & Deployment:** Flask (REST API, POST endpoints), Streamlit, Pickle, PuLP (Optimisation)
- **Statistics:** Hypothesis Testing, ANOVA, Chi-Square, Cross-Tabulation, Inferential Statistics, SPSS
- **Version Control:** Git, GitHub (15 public repos)
- **Web:** HTML, CSS, JavaScript
- **Soft Skills:** Analytical Thinking, Problem Solving, Communication, Stakeholder Reporting, Attention to Detail

TECHNICAL EXPERIENCE

Data Science Intern

CodTech IT Solutions (Remote)

May 2025 – Jun 2025

- Cleaned **50,000+ HR records** (eliminated 10% null rate); built automated ETL pipeline and deployed extbfFlask REST API serving house price predictions via Random Forest (RMSE \$28,398)
- Built **image classifier (92% accuracy)**, LP optimisation model (PuLP), and **4 EDA dashboards** (Matplotlib/Seaborn) translating work-force insights into stakeholder reports

Machine Learning Intern

Cognifyz Technologies (Remote)

Dec 2024 – Feb 2025

- Analysed **9,542 restaurant records across 141 cities**; built cuisine classification pipeline (RF vs LR), KMeans geospatial clustering ($k=5$), and location-based recommendation system across 1,825 cuisine types
- Delivered structured ML performance reports; visualised segmentation with interactive Folium maps

PROJECTS

Automated Brain Stroke Prediction using ML | [Link](#)

- Built pipeline on **30,000+ patient records**; SMOTE for class imbalance; **Random Forest: 92% AUC-ROC**; Streamlit app for real-time risk assessment

Traffic Sign Recognition using Deep Learning | [Link](#)

- Trained CNN on **GTSRB dataset (45,000+ images, 43 classes)**; achieved **94% test accuracy** via ImageDataGenerator augmentation and iterative hyperparameter tuning

Sales Performance Dashboard

- Built multi-page **Power BI dashboard** tracking revenue trends, regional KPIs, product category breakdown, and MoM growth using DAX calculated measures and drill-through pages

Impact of Online Gaming Among College Students

- Surveyed **348 students**; 77.4% reported laziness, 31.3% health issues; **5 Chi-Square tests** confirmed significant associations ($p = 0.005$)

CERTIFICATIONS

Microsoft Fabric — Data Science, E2E Analytics, Lakehouse, Real-Time Intelligence, Data Activator, Eventstream (Aug 2024) · **Microsoft** — Generative AI, Copilot, AI, Administer (Aug 2024) · **Advanced SQL** — Kaggle (Aug 2024) · **Communication & Presentation** — TCS iON (Feb 2025)

LANGUAGE PROFICIENCY

Tamil (Native) | English (Professional) | Hindi (Conversational) | Marathi (Conversational) | Kannada (Conversational)
